

Welcome to Oxynergy Paris

Skin's intake of oxygen starts to decline at the age of 20 and is reduced by 50 % by age 50. Oxygen is vital for the skin. Urban pollutions have lowered the overall level of oxygen in the environment to 21%. This level is about half of what the air used to contain. Further, the skin is the last organ where inhaled oxygen travels, because oxygen depletion of the skin is not as detrimental as to other organs. Oxygen depletion and CO₂ accumulation lead to poor cell respiration, which causes dehydration, uneven skin tone and dull skin. It is probably the largest contributor to the premature aging of the skin, as CO₂ blocks bio-pathways for cell metabolism.

Oxynergy Paris is one of the best responses to skin ageing, which consist in removing dead cells & dust and then applying a mixture of pure oxygen and specific concentrates directly over the skin. High performance active ingredients and a constellation of natural extracts in their highest concentration, penetrate to the deepest levels of the epidermis with the pure oxygen, to produce the Oxynergy rejuvenation effect. The secret lies in the perfect synergy between advanced **beauty systems** with an exclusive **skin care line**.

Main factors producing the **Oxynergy natural rejuvenation effect**:

- Skin oxygenation
- Reactivation of bio pathways & cells oxygenation
- Deep penetration of the products
- Active ingredients & natural extracts
- Skin resurfacing
- Skin detoxification
- Stimulation of skin microcirculation

Oxygen rejuvenation by Oxynergy Paris

"A **high quality procedure** described as the most **natural** way to regain the youthful appearance without chemicals, lasers or surgery. An absolute synergy of non-invasive procedures & exclusive **skin care line**."

Oxynergy excellence®

The ultimate device for oxygen skin treatment applies three main techniques: **Oxygen mesotherapy** or pulsed oxygen flow to introduce specific serums into the deepest layers of the skin, **Oxygen atomization** to spray emulsions of serum and pure oxygen over the skin. **Oxygen diffusion**, skin care creams are oxygenated and introduced directly into the skin – giving immediate and visible results.

Crystal peeling excellence®

Improves the appearance of scarring, fine lines, wrinkles, pigmentation, uneven skin tones, and dull, lifeless or sun-damaged skin. A fine abrasive powder is sprayed onto the skin in a safe and uniform manner to exfoliate the skin painlessly. Skin cells regeneration along with the production of new collagen and elastin is highly activated.

Cryo therapy excellence®

Application of a cooling shock on the skin surface. It is immediately followed by a transfer of temperature to the deep layers. This enables and provokes three main reactions: skin soothing, absorption of products and skin oxygenation.

Oxynergy enhancer® virtual mesotherapy

A new technology of transdermal administration without needle and any sort of electric shock. This unique system allows the introduction of all kinds of substances (ionic, non-ionic, lipophilic or hydrophilic) directly in the heart of the cells. Through exclusive non-ionizing and atermic electromagnetic waves, the Oxynergy enhancer creates a biologic stress of the skin cells and a partial destabilization of the cell membrane potential that increase of 400 times its permeability.

The Oxynergy Enhancer can be used as a single treatment with all the skin care line but also to enhance the results reached in Oxygen therapy, and complement the Oxynergy lift technique.

Oxygen line

The oxygen skin care line has been developed to answer all main concerns for maintaining a perfect young skin & a perfect body shape. The line is based on the latest cosmetic innovation such as organic silicum, hyaluronic acid, argireline in synergy with natural extracts & vitamins.

Facial indications:

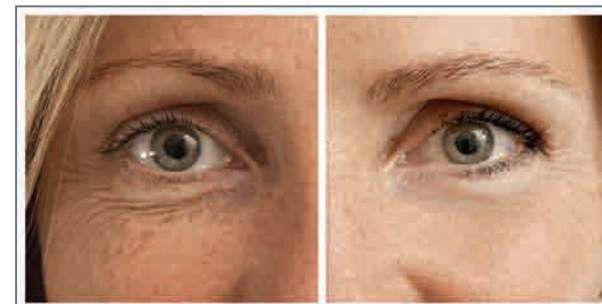

Skin anti-ageing - fights against oxidative stress & glycation process
 Wrinkles & fine lines – improves firmness, elasticity and collagen density
 Whitening & lightening – reduces age spots & blemishes
 Oily Skin, acne & open pores – balances skin lubrication
 Dry Skin – moisturizes the skin at the deepest level
 Sensitive skin – soothes inflammations & redness
 Deep cleansing – removes pollution & dust
 Relaxing & pleasure- Exclusive fragrances & textures

Spa line

With a complete spa spirit, the Oxynergy Paris spa line meets all needs in terms of re-mineralization, relaxation, pleasure & anti-ageing. An original comprehensive concept for the face and mind that combines effectiveness and pleasure. The spa program is based on an exclusive innovation, the Matrixyl 3000 & the bamboo water. Matrixyl 3000 contains matrikines, which are messengers of cutaneous re-structuring and repair. Bamboo water, better than water from the highest glaciers, is the purest and most valuable water source. Bringing the magic of plants, trace elements and mineral salts as found in the fresh plant, explaining a perfect skin bioavailability.

Body indications:

Firming & slimming
 Cellulite
 Stretch Marks & Scars
 Drainage & detoxification

Your first impression to people
“Your skin”

- * Developed by French cosmetologist
- * Specific emulsion technology that multiplies the bioavailability
- * Light textures for optimal skin absorption
- * Optimized & reduced concentration of preservatives
- * Includes mostly natural perfumes and colorings
- * Based on a careful selection of active ingredients from FRANCE

Cleansing skin care

Lait nettoyant & Lotion thé vert for all skin types

Green tea, olive leaf extract, olive oil rich in omega-3
Enriched in olive oil, the cleanser gently removes all types of make-up, even the most intense. Better still, it prepares the epidermis to receive daily skincare products. Formulated on the basis of natural extracts of green tea and olive leaf, the cleanser & lotion neutralize free radicals to protect your skin from ageing. The lotion very gently removes make-up leftovers, leaving the skin supple and perfectly cleansed. To be used morning and evening for a pleasant sensation of freshness.

Doux démaquillant yeux

Vitamin B5 & E

This bi-facies formula eliminates all kinds of make-up on the eyes and lips in a single step. Non-greasy and with a pH adapted to tears, it ensures high skin tolerance and provides a wonderful sensation of softness and ultimate pleasure. Vitamin enriched, the eye make-up remover protects and highlights the skin's beauty for particularly sensitive eyes & lips contours.

Doux démaquillant & lotion apaisante for sensitive skin

Organic silicium, vegetal collagen, vegetal extracts
Sensitive skin is thin and delicate, sometime producing itchy, hot, and irritable sensations. Oxynergy Paris has developed a cleansing program, which is aimed at reinforcing the skin's protective functions. Its 100% alcohol, perfume & coloring free formulas are perfectly tailored to sensitive and mature skin. The milk & lotion gently remove all traces of make-up. Enriched with collagen and organic silicium, a real concentrate of anti-ageing, active ingredients, the epidermis is prepared to receive the other daily skincare products. A milk with a soft and velvety texture that provides a pleasant sensation of comfort and relief.

Intensive skin care

Sérum repulpant

Dielectric skin relax

The performance of this formula is based on various mechanisms that allow strong, fast, and long-term improvement of wrinkles. The skin volume increases instantly, muscle are relaxed, resulting in an immediate improvement of the skin's appearance. The re-pulping serum captures also oxygen and releases it in the lower skin layers, replacing CO₂ with Oxygen refreshing cellular metabolism and acting as revitalizer of the skin, removing cumulated pollutants.

Sérum hyalu-tense

Hyaluronic acid, argireline, liftline

This facial and neck treatment is based on high concentration of Hyaluronic acid, Argireline, wheat proteins and hydrocolloids to leave a smooth & protective film on the skin. The result is immediate; wrinkles are reduced, the skin is lifted and deeply moisturized.

Sérum AHA

AHA, collagen, organic silicium, natural extracts

A facial treatment with an extraordinary and rich combination of selected vegetable and fruit extracts (elderberry/sambucus, Ladie's mantle, cucumber, ginseng, aloe vera etc.). A moisturizing and restructuring treatment, which provides a rejuvenating, shock treatment for the face. Continuous use stimulates the shedding of dead cells and results in a more luminous, soft, smooth appearance of the skin.

Sérum vitamine C

Stabilized vitamin C, Arbutin

A complete treatment to whiten naturally matte and dark skins, it also de-pigments the most resistant blemishes. This high-precision biotechnology acts upon the skin's natural pigmentation cycle, increasing cell production by activating cellular respiration and its subsequent oxygenation.

Oxynergy lift

Argireline 10 %, organic silicium, retinol

Today, the Oxynergy lift concept, without a doubt, is the best cosmetic alternative to microinjections. With "smooth-lifter" properties, it helps to reduce wrinkles, expression wrinkles and fine lines that are produced by the continual muscle contractions.

Oxynergy filler

Hyaluronic acid, collagen

Long-lasting oil-free moisture program. A three dimensional diffusion system of continual moisturizing actives. The filler, a delicious soft texture of glace sorbet, fuses into your skin forming and maintaining a full water reserve.

Oxygénant cellulaire

Liposoms, collagen, AHA, vitamin E, retinol

Rich emulsion for mature skin. Boost the cellular respiration and the skin oxygenation. Cellular oxygenator is a rich non-oily, extra nourishing and anti-ageing emulsion to apply before the cream.

Oxynergy éclaircissant

Kojic acid, AHA, vitamin C, vitamin E, retinol, arbutin

Intensive treatment that combines the most powerful lightening agents, which interferes in the synthesis of melanin, to dramatically diminish the appearance of hyper-pigmentation. The multi-hydroxy acid combination provides an even, non-aggressive exfoliation and enhances the absorption of the lightening complex.

Daily skin care

Crème de jour

Vitamin E, retinol, vegetal DNA, organic silicium

An ultra-soft daily care formulated to reduce sources of skin aging (oxidation process, decrease in cellular activity) and promote the repair of the skin damages (collagen break down, hypersensitivity, loss of moisture, wrinkles). It protects from daily sun exposure, pollution and the formation of free radicals.

Crème de nuit

Vegetal collagen, bisabolol, organic silicium

A precise response to sensitive & mature skin with a rich combination of soothing, nourishing and anti-aging ingredients. Sensitive skin is fine and delicate, sometimes producing itchy, hot, and irritable sensations. The night collagen cream is reinforcing the skin's protective functions. During the night, cell renewal is important and the night cream is a real "booster" of nocturnal cutaneous regeneration. Its creamy texture provides a real sensation of comfort and suppleness until the morning. 100% free of alcohol, perfume, coloring, and animal extract.

Crème équilibrante

Lemon extract, calendula oil, organic silicium

The balancing cream is as an intensive anti ageing treatment for oily skin. At the same time, this treatment regulates skin lubrication, reduces microbial proliferation and act on the daily skin rejuvenation process. Day after day the skin recovers a natural hydrolipidic layer and looks younger.

Soin éclaircissant

Hyaluronic acid, vitamin C, organic silicium

Perfect synergy of vitamin C, hyaluronic acid and a full selection of actives that help to promote the de-pigmentation of the skin blemishes, while ensuring healthy luminous skin. This high-precision biotechnology acts upon the skin's natural pigmentation cycle, increasing cell production by activating cellular respiration and its subsequent oxygenation.

Hydratation intense

Hyaluronic acid, organic silicium

Soft, fresh and radiant skin! Hyaluronic acid moisturizer reduces the signs of stressed skin and plumps the wrinkles and dehydration lines from the inside out. Restores normal skin moisture. It is a very soft and light cream with a non-greasy and sticky sensation.

Contour des yeux

Hyaluronic acid, organic silicium

A special eye care cream that reduces the swelling of the eyelids, smoothes wrinkles around the eyes, and rejuvenates the overall appearance. It can also be used for the lip area.

Complementary skin care

Masque de collagène

Collagen for sensitive skin

Visible results and sheer relaxation with the 2nd skin collagen matrix. The efficient mask for deep active ingredients penetration, fresh, smooth and young skin. The secret: collagen as a natural moisture reservoir for the skin & our know-how to turn this matrix in a second skin. Our mask makes facial care a unique experience for every skin type and especially for sensitive and mature skin. The collagen restores moisture, improves skin smoothness and has a soothing effect on stressed skin.

Masque acide hyaluronique

Hyaluronic acid, hydromanyl

A new generation of mask by Oxynergy paris specially recommended for dry and mature skin. A gel-cream mask melting at the contact of the skin. An incredible synergy of hyaluronic acid & hydromanyl that restores high skin moisture and reduce wrinkles.

Masque mangue

Fresh mango cells, hydromanyl

A gel-cream fruity mask melting at the contact of the skin. An incredible synergy of mango fresh cells & hydromanyl. Fresh mango cells present a good anti-hyaluronidase and anti-tyrosinase activity. They are dedicated for repairing, anti-ageing & age-spots treatments. Restores high skin moisture, nourish, repair & lighten the skin.

Masque fraise

Fresh strawberry cells, hydromanyl

A gel-cream fruity mask melting at the contact of the skin. An incredible synergy of strawberry fresh cells & hydromanyl. Fresh strawberry cells is an excellent depurative treatment for young skin, also astringent & detoxifying. Restores high skin moisture, refresh and purifies. A very soft and light cream with a non-greasy and sticky sensation.

Exfoliating skin care

Oxynergy Peel

Vitamin C & A, glycolic acid

An exclusive vitaminated peeling formula to be sprayed on the skin with oxygen or applied with a cotton pad. A more even and deep result. After the first treatment the skin feels soft and appears more luminous. A high-precision biotechnology that acts upon the skin's natural pigmentation and exfoliation cycle, increasing cell production by activating cellular respiration and its subsequent oxygenation.

Soin Exfoliant

Cucumber extract & carrot oil

In 5 minutes, this soft exfoliating mask gently eliminates dead cells and impurities, recovering a fine textured skin that becomes receptive to other treatments. This formula is not containing micro-particles that may be responsible of irritations and redness.

Body skin care

Intensive firming & slimming

Sérum restructurant

Organic silicium, centella asiatica

A genuine multi-treatment serum that has an incredible restructuring and re-firming effect. Especially good for the chest and abdomen. The careful selection of active ingredients converts the regenerative serum into an outstanding treatment against flaccidity and stretch marks. Restores affected elastic fibers, strengthens tissues and maintains firm and smooth skin. The regenerative serum has also a strong effect on lipolysis and so on is an excellent base for slimming program.

Soin restructurant

Organic silicium, collagen, elastin, centella asiatica, aloe vera

This body-cream formula is a derivative of the re-structuring serum designed for daily use in addition to the professional treatment. It is also an excellent body moisturizer.

Soin sculptant café

L-carnitine, cafeine, organic silicium, ginkgo, guarana

Oxynergy Paris is offering a professional slimming solution that combines performance and pleasure. An ultra-concentrated gel cream for a global sculpting result. Reduces cellulite, prevents the formation and development of fatty tissue, drains, detoxifies and reinforces the tone and elasticity of the skin. After few weeks the body is re-sculpted, the skin is visibly smoother, firmer and softer.

Intensive drainage & detox

Sérum cryo-dynamisant

Arnica, menthol, camphor, natural extracts

A professional intensive drainage and detox for the tissues. The cryo-dynamisant program relieves heavy, tired, painful or swollen legs by aiding in the improvement of circulation and providing a true vascular workout. This complex multi-treatment of flower and plant extracts has hypothermic properties that fight against the permeability and fragility of the capillaries.

Soin cryo-dynamisant

Arnica, menthol, camphor, natural extracts

Gel formula for daily use in addition to the professional treatment. The benefits can be felt immediately: the epidermis is toned, the lightness of the legs is restored and all sensations of tiredness are forgotten.

Spa line

An exclusive spa experience for all skin types that contributes to enhance each woman's beauty and wellness. This unique approach and precise technique provides an intensive oxygenating, relaxing and anti-ageing effect. Home products complement this high-performance professional treatment.

Sérum spa

Matrixyl, bamboo water, organic silicium

This treatment is fluid and so concentrated that only a few drops are used for each application. A real booster, this enriched treatment stimulates vital functions while regenerating the skin cells. The skin is radiant, resplendent and glowing of vitality.

Spa essence

Matrixyl, bamboo water, organic silicium

This gel serum offers the skin a real surge of moisture. Both moisturizing and reparative, this incredibly fresh skincare is immediately absorbed. Applied just before the cream, this light gel enhances the rejuvenation effect.

Crème spa

Dielectric skin relax, matrixyl, bamboo water, organic silicium

This fundamentally beautifying and relaxing cream is extremely beneficial against skin ageing. Enriched with dielectric skin relaxant, it gives a real burst of oxygen to the skin that is lacking vitality, removing & detoxifying it from CO₂ while replacing the toxins with oxygen.

Gel spa yeux

Matrixyl, bamboo water, organic silicium

This refreshing crystal gel reduces puffiness and removes signs of fatigue. Used morning and night, it stimulates cellular renewal to prevent skin ageing around the eyes and lips. Dehydration lines are softened and the epidermis is protected.

Masque spa

Bamboo water, organic silicium

Within a few moments, the rich and enveloping cream-texture of the spa mask immerses the skin in a bath of freshness and vitality. An intense source of well-being and essential elements to restore the skin vital radiance and moisture.
